

Use screeners to find new potential trading opportunities

[View pre-set screeners](#)

Hi {{.first_name}}, screeners can help you easily uncover new trading opportunities during earnings season. You can use pre-set screeners to identify symbols with upcoming earnings, new 52-week highs, day-to-day price changes, and high options trading volume.

Want to curate your search? Create a custom screener to find stocks that fit your trading criteria with filters based on analyst ratings, P/E ratio, dividend yield, and more.

All investments involve risk and loss of principal is possible. Not a recommendation of a security or investment strategy.

The stock screener is provided for informational and educational purposes only and should not be used or construed as investment advice, or an offer, solicitation, or recommendation to buy, sell, or hold any security or financial product discussed therein or engage in any specific investment strategy. The stock screener is not designed to provide results specific to your individual financial situation, risk tolerance, or investment goals, and should not be relied upon in any way to determine the suitability of an investment for you. You can modify the criteria as you see fit. Before buying or selling any investment, you should carefully consider your individual financial situation, investment objectives, risk tolerance, and liquidity needs to determine whether the investment is suitable for you. Stock screener outputs do not consider or reflect future dividend payments or take into account interest rate variabilities, or additional expenses and transaction costs, such as applicable taxes, fees, and interest, which may affect the profitability of a trade and the value of your investments. Results may vary with each use and over time, do not reflect actual investment results, and are not guarantees of future results. Keep in mind this tool is only one approach to analyzing financial assets. When considering which assets to buy, sell or hold, customers should use the approach that they're most comfortable with.

There are additional, unique risks with trading outside of regular market hours you should be aware of before making an investment decision, including the risk of lower liquidity, increased volatility, greater spreads, and pricing uncertainty. Please review the Extended Hours Trading Disclosure for more information concerning these risks. The Robinhood 24 Hour Market is from Sunday 8PM ET - Friday 8PM ET.
