

Ring Protect

You no longer have Extra Data.

We're confirming you've opted out of Extra Data for 24/7 Backup Internet on your Protect Pro subscription.¹ Here's what this means for you:

- You can no longer use more than 3GB per month of data for Backup Internet.
- Your Alarm Cellular Backup will enable your Alarm Pro to continue sending alarm signals.
- If you have unpaid Extra Data charges, we'll still charge you for that amount (this will be a one-time charge).

Want to opt back into Extra Data? Tap the button below.
